this is the required response for KEVG FM Sanderson Tx 102.7 fm

as the engineer for the station it is on and currently running country music you can check it out at [www.whistlecountry.com](http://www.whistlecountry.com) .

Ms Torres who is the owner of the station had a relative that was helping her out on forms for the FCC that person has been removed and I will handle them from now on

also what do i need to do to dismiss the silent forms he filled out for the station since there not needed

there was a problem in march of last year with Econco which was shipping tubes that kept blowing and an exciter problem of which both have been fixed

the current transmitter is a harris 20k series fm transmitter with a Nicom 30 watt exciter the the one that came with the transmitter never worked right so we retired it

if you would please let me know what I need to do to resolve this matter as soon as possible I am in Alabama doing engineering work due to all the storms this weekend so if you would please call me at 251-228-7688

thanks
