KARN(AM), Little Rock, AR  
Facility Identification Number: 60703  
Special Temporary Authority (STA)  
BESTA-20200430AAE

Dear Mr. Denning:

This is in reference to the request filed on April 30, 2020. RLH requests a further extension of the STA granted on November 6, 2019, to continue operating ND with reduced power to allow time to complete all equipment repairs.<sup>1</sup> In support of the request, RLH states that additional time will be required to identify and resolve all problems.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and RLH may continue to operate ND day and night using a maximum of 1.25 kW. RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. RLH must

<sup>1</sup> KARN is licensed for operation on 920 kHz with 5 kW day (ND), and 5 kW night (DA).

submit an e-mail to my attention to note the date the station resumed licensed operations per BMML-20161219ADO with negligible changes.

This authority expires on **November 20, 2020**.
