Re: Short Term Reduced Power Operation KBUY-AM

Gentlemen:

Please be advised that KBUY-AM (FCC ID 70826) will operate at reduced power of 1KW for a period not to exceed 30 days, effective 2 June 2020. This is necessitated by damage from 2 lightning strikes received in the last 10 days resulting in extensive damage to solid state transmitter power amplifier modules and spares, making it technically impossible to operate at authorized power. Parts acquisition is in progress and will conduct repairs as soon as practicable.

Sincerely,

Cy Leland
Contract Engineer
