Special Temporary Authority (STA)  
BESTA-20200624ARN

Dear Mr. Standley:

This is in reference to the request filed on June 24, 2020. 321 requests a further extension of the STA granted on September 20, 2017, to continue operating at night with the daytime pattern at reduced power to allow time to complete all required repairs and file the required FCC Form 302 application to update all operating parameters.<sup>1</sup> In support of the request, 321 stated that additional time is needed (to file the application).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and 321 may continue to operate with 0.25 kW at night using the licensed daytime directional antenna pattern (with no change to the licensed daytime directional operation). 321 must reduce power or cease operation if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's

<sup>1</sup> WKQK(AM) is licensed for DA operation on 1300 kHz with a two tower 5 kW daytime pattern, and a three tower 1 kW nighttime pattern.

exposure guidelines. *See* 47 CFR §1.1310. 321 must submit an e-mail to my attention to note the date the application was filed.

This authority expires **December 24, 2020**.
