Special Temporary Authority (STA)
BESTA-20200724AAM

Dear Mr. Denning:

This is in reference to the request filed on July 24, 2020. RLH requests a further extension of the STA granted on January 27, 2020, to continue operating with reduced power due to lightning damage.¹ In support of the request, RLH stated additional time is needed to complete repairs and resume licensed operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

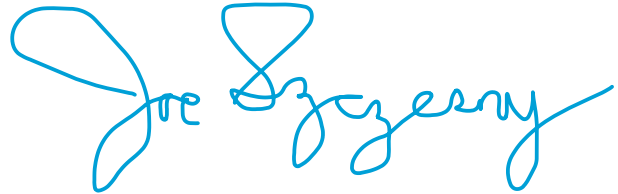

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and RLH may continue to operate with 2.5 kW day and night. RLH must use whatever means are

RLH must submit an e-mail to my attention to note the date the station resumed licensed operations per BZ-20011219AAV with negligible changes.

This authority expires on **February 4, 2021**.
