Re: KJMQ(FM), Lihue, Hawaii
Facility Identification Number: 49898
Hochman Hawaii Four, Inc.
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed December 11, 2007, on behalf of Hochman Hawaii Four, Inc. ("HHF"). HHF requests extension of the special temporary authority ("STA") granted on June 19, 2007, to former licensee James L. Primm, for operation of Station KJMQ from a site other than the licensed site.¹ In support of the request, HHF states that its application to permanently relocate the station to the STA site remains pending.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that Construction Permit BPH-20070605ACG was granted on June 18, 2008. Thus, the licensee has made substantial progress toward restoring licensed operation, and extension of STA is warranted to allow time for construction of the newly authorized, modified facilities.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KJMQ may

¹ KAWV is licensed for operation on Channel 251C1 (98.1 MHz) with effective radiated power ("ERP") of 51 kW (H&V) and antenna height above average terrain ("HAAT") of 4 meters. Construction Permit BPH-20070605ACG authorizes relocation of the transmitter and operation with ERP of 16 kW (Max-DA, H&V) and HAAT of 280 meters.

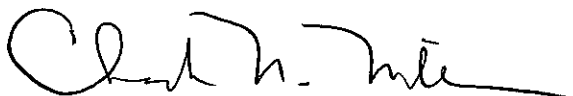

continue to operate with the following facilities:

Geographic coordinates:	21° 56' 10" N, 159° 26' 43" W (NAD 1927)
Effective radiated power:	0.2 kilowatt (H&V)
Antenna type:	Nondirectional
Antenna height	
Above ground:	5 meters
Above mean sea level:	386 meters
Above average terrain:	236 meters

HHF must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 8, 2009**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.
