WTOX(AM), Glen Allen, VA
Facility Identification Number: 129524
Special Temporary Authority (STA)
BESTA-20200825AAD

Dear Mr. Janbakhsh:

This is in reference to the request filed on August 25, 2020. TVH requests a further extension of the STA granted on August 27, 2019, to continue ND operation with reduced power to allow time to sell the station to a new licensee (due to loss of one tower last year).¹ In support of the request, TVH stated that it plans to let the new licensee restore licensed operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is **HEREBY GRANTED**, and TVH may continue to operate ND with a maximum of 1.57 kW (day) and 0.375 kW (night). TVH must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

¹ WTOX(AM) is licensed for DA operation on 1480 kHz with 6.3 kW (day) and 1.5 kW (night), using the daytime pattern at night with reduced power.

This authority expires on **March 22, 2021.**

Sincerely,
