FCC Mailroom

Greetings,

Below you will find at least **16 FCC VIOLATIONS** from (8) FCC Licensed Stations. These violations have been committed daily for months. Curious why the FCC continue to allow the owner/operator to do so? We are in Tornado Alley and this is tornado season, let alone this is a disservice to the communities they are licensed to. Now you know...

Allowing broadcaster to continue break the rules is not fair to fellow licensed broadcasters or the community's the owner/operator has the privilege to serve.

Thank you.
