Re: KRDX (FM), Corona de Tucson, AZ
Desert West Air Ranchers Corporation ("Desert West")
Facility Identification Number: 36023
Construction permit BPH-20070601BRS
and License Application BLH-20130624AAE

Dear Mr. Tucker:

By letter dated April 10, 2020, we dismissed KRDX's pending licence application BLH-20130624AAE because the licensee had not implemented operations during the past (nearly) six years, for reasons within the licensee's control. But in the petition for reconsideration you filed on May 15, 2020, you advised that Cochise Broadcasting LLC was working toward completing construction for KXZK. A license application for KXZK was filed on May 19, 2020. That license application was granted **October 9, 2020**. That license grant removes the impediment to KRDX's license application, and Desert West avers that KRDX is ready and able to commence full power operation upon grant of the KRDX license.¹

In light of the changed circumstances, we set aside the April 10, 2020 dismissal of KRDX's license application BLH-20130624AAE. The petition for reconsideration is granted to the extent indicated by this letter. The cancellation of the underlying construction permit BPH-20070601BRS IS REVERSED and the license application BLH-20130624AAE is REINSTATED. Further, that license application, being now acceptable for filing, IS GRANTED. Operation of KRDX may commence immediately. KRDX shall advise the Commission when licensed operations have resumed.

Sincerely,

Dale Bickel
Senior Engineer
