

October 16, 2020

Marlene H. Dortch  
Secretary  
Federal Communications Commission  
Washington, DC 20554

**RE: Call Sign WMFO; Facility ID 68320  
File No. BTCED-20200130-AAF  
Notice of Consummation**

Dear Ms. Dortch:

This letter constitutes the Notice of Consummation (“Notice”) of WMFO’s above-captioned transfer of control application.

WMFO is licensed to Tufts University and, as such, ultimate control of the station lies with the University’s Board of Directors (“Board”). WMFO filed an FCC Form 316 application so to reflect the gradual change in the composition of the Board that had occurred over a period of years. Given that this change in the Board composition happened over time, there was no actual transaction and therefore no specific date for the consummation of the “transaction.” For this reason, consummation here is a self-consummation process, with no specific date attached to the event.

Out of an abundance of caution, and to complete the Federal Communications Commission’s (“Commission”) record in this matter, this Notice is being filed. To the extent necessary, should the Commission believe that a particular filing date exists, WMFO requests waive of any rule regarding the timing of this Notice.

Please direct any questions to the undersigned.

Sincerely,

Akiyo Fujii  
Deputy General Counsel
