Re: Relevant Radio, Inc. (RRI)
WQOP(AM), Jacksonville, FL
Facility Identification Number: 51976
Special Temporary Authority (STA)
BESTA-20201029AAB

Dear Mr. Hoffman:

This is in reference to the request filed on October 29, 2020. RRI requests a further extension of the STA granted on October 7, 2019,, to continue operating with parameters at variance and reduced power to allow time to install a new transmitter.¹ In support of the request, RRI stated that it has ordered the new transmitter .

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is hereby GRANTED, and RRI may continue to operate with parameters at variance and a reduced daytime power of 10 kW while maintaining all nighttime monitor points with licensed tolerances. RRI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. RRI must submit an e-mail to my attention to note the date the station resumed licensed operations per BL-20080416ABI with negligible changes, or the date an FCC Form 302 application was filed to update all operating parameters.

¹ WQOP(AM) is licensed for operation on 1460 kHz with 15 kW day (ND) and 5 kW night (DA).

This authority expires on **May 12, 2021.**

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" and last name "Szczesny" clearly distinguishable.

Joseph Szczesny, Engineer
