Re: Perry Broadcasting Systems (PBS)
WBSG(AM), Lajas, PR
Facility Identification Number: 53629
Special Temporary Authority (STA)
BESTA-20201030ABD

Dear Mr. Cruz:

This is in reference to the request filed on October 30, 2020. PBS requested a further extension of the STA granted on September 20, 2019, to continue ND operation with tower #1 of the two tower array to allow time to file the required FCC Form 302 application to update all operating parameters.¹ In support of the request, PBS will need to file the application after reconstructing the facility due to severe hurricane damage in 2017.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WBSG(AM) is licensed for DA operation on 1510 kHz with 1 kW (day and night using the same pattern).

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and PBS may continue to operate ND with a maximum of 0.25 kW. PBS must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. PBS must submit an e-mail to my attention to note the date the application was filed.

This authority expires on **May 17, 2021**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny", with a large, stylized initial "J" and a long, sweeping underline.
