1496 BELLEVUE STREET  
SUITE 202  
GREEN BAY WI 54307

Facility Id: 53707

Call Sign: KIHM

License File Number: BML-20201013AEE

License to modify BML-20180216ACS to change from commercial to non-commercial only, with no other changes.

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Sampling System Approved Under Section 73.68 of the Rules.

Special operating conditions or restrictions:

- Licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
- Ground system consists of 120 equally spaced, buried, copper radials, each 81.4 meters in length except where intersecting radials are shortened and bonded to a transverse copper strap midway between adjacent towers, about the base of each tower. In addition, daytime non-directional operation uses tower #1(east).

Special operating conditions or restrictions:

- 3 Waiver of 47 CFR Section 73.1560(a) is granted to permit the licensee to operate with modulation dependent carrier level control technology, which reduces transmitter power at certain modulation levels.
