Re: KCAL (AM), Redlands, California

Facility Identification Number: 55416

Lazer Licenses, LLC

Special Temporary Authority

## Dear Counsel:

This is in reference to the request filed February 13, 2008, on behalf of Lazer Licenses, LLC ("LLL"). LLL requests further extension of the special temporary authority ("STA") granted on June 21, 2006, to operate Station KCAL with reduced power. In support of the request, LLL states that it has completed repairs to the station's antenna system and that it plans to retune the system and file an appropriate application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

<sup>&</sup>lt;sup>1</sup> KCAL is licensed for operation on 1410 kHz with 5 kilowatts daytime and 4 kilowatts nighttime, employing separate daytime and nighttime transmitter sites and employing a directional antenna during nighttime hours only (DA-N-U).

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KCAL may continue to operate during nighttime hours with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. LLL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on January 25, 2009.

Sincerely,

Charles N. Miller, Engineer

Audio Division Media Bureau
