Re: Tyler Media, LLC (TM)
KOKC (AM), Oklahoma City, OK
Facility Identification Number: 73981
Special Temporary Authority (STA)
BESTA-20210408AAE

Dear Mr. Tyler:

This is in reference to the request filed on April 8, 2021. TM requests a further extension of the STA granted on January 17, 2012, to continue operating using the shorter tower constructed in 2015 (due to destruction of the original three tower antenna system) to allow time to file the required FCC Form 301 application.¹ In support of the request, TM stated that Mr. Timothy Cutforth has been retained to assist in preparing and filing the application to propose construction of a new permanent facility at the licensed site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and TM may continue to operate with the following facilities:

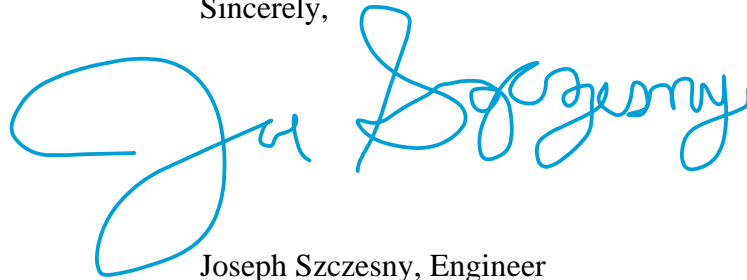

¹ KOKC is licensed for 50 kW operation on 1520 kHz with a daytime ND antenna, and a nighttime DA antenna.

Geographic coordinates	35° 20' 01" N, 97° 30' 18" W (NAD 1927)
Frequency	1520 kHz
Hours of operation	Unlimited
Operating power	10 kW (Unlimited)
Antenna type	new shorter tower constructed in 2015 for this STA
Overall tower height	59 m
Radiator height.	57.9 m
Antenna efficiency	316 mV/m/km/KW

TM must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR 1.1310. TM must submit an e-mail to my attention to note the date the application was filed to allow our staff to determine how much additional time will be authorized to operate with temporary parameters.

This authority expires on **November 5, 2021**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
