Re: FRC of Alabama, LLC (FRC)
DBA Focus Radio Communications
WTKI(AM), Huntsville, AL
Facility Identification Number: 30965
Special Temporary Authority (STA)
BESTA- 20210503AAF

Dear Mr. Holland:

This is in reference to the request filed on May 3, 2021. FRC requests a further extension of the STA granted on March 31, 2017, to continue operating from an alternate site to allow time to file the required FCC Form 302 license application.¹ In support of the request, FRC stated that additional time will be needed to complete construction and file the application to cover BP-20200811AAA..

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is hereby GRANTED, and FRC may continue to operate with the following facilities:

Geographic coordinates	34° 43' 43" N, 86° 36' 01" W (NAD 1927)
Frequency	1450 kHz

¹ WTKI(AM) is licensed for ND operation on 1450 kHz with a power of 1 kW (day and night), and BP-20200811AAA proposes to build a new shorter tower.

Hours of operation	Unlimited
Operating power	0.55 kW
Antenna type	169 foot long wire antenna
Antenna height above ground	Wire strung between poles at 54 feet above ground

FRC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR 1.1310.

This authority expires on **November 12, 2021**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
