Re: Family Station, Inc. (FSI)
KECR(AM), El Cajon, CA
Facility Identification Number: 20977
Special Temporary Authority (STA)
BESTA- 20210604AAP

Dear Mr. Evans:

This is in reference to the request filed on June 4, 2021. FSI requested a further extension of the STA granted on May 19, 2020, to continue operating using the nighttime antenna system with reduced power during daytime hours, to allow time to complete all remaining repairs.¹ In support of the request, FSI states that although some repairs were completed over the past six months, additional problems were found that will require more time to repair.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and FSI may continue to operate daytime using the nighttime pattern with a reduced power level of 1.87 kW (with no change to the licensed 5 kW nighttime facilities). FSI must reduce the daytime power level further or cease operations if complaints of interference are received. FSI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. FSI must submit an e-mail to my

¹ KECR(AM) is licensed for DA operation on 910 kHz using different 5 kW day and night antenna patterns.

attention to note the date an FCC Form 302 application was filed to update all operating parameters, or the date the station resumed licensed operations per BL-20070430CGQ with negligible changes. .

This authority expires on **December 27, 2021**.
