Re: Legend Communications of Wyoming, LLC
(Legend)
KIML(AM), Gillette, WY
Facility Identification Number: 24212
Special Temporary Authority (STA)
BESTA-20210629AAI

Dear Ms. Patrick:

This is in reference to the request filed on June 29, 2021. Legend requests an extension of the STA granted on December 22, 2020, to continue operating ND day and night with reduced power to allow time to file the required FCC Form 302 application to cover BP-20201228AAD.¹ In support of the request, Legend stated that additional will be needed to file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and Legend may continue to operate ND with a maximum of 1 kW day and 0.04 kW night as authorized by the construction permit. Legend must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. Legend must submit an e-mail to my attention to note that date the 302 application was filed to verify no further STA operation is needed.

¹ KIML(AM) is licensed for operation on 1270 kHz with 5 kW day (ND) and 1 kW night (DA), and BP-20201228AAD authorizes ND operation with 1 kW day and 0.04 kW night.

This authority expires on **January 15, 2022.**

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with a large initial "J" and a checkmark at the end.

Joseph Szczesny, Engineer
