Re: IHM Licenses, LLC. (IHM)
WCKY(AM), Cincinnati, OH
Facility Identification Number: 51722
Special Temporary Authority (STA)
BESTA-20210805AAA

Dear Mr. Langham:

This is in reference to the request filed on August 5, 2021. IHM requests a further extension of the STA granted on January 15, 2020, to continue operating ND at night with reduced power to allow time to restore licensed operations.¹ In support of the request, IHM states that additional time is needed to complete the remaining antenna system adjustments.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and IHM may continue to operate ND at night using tower #1 with a reduced maximum power of 12.5 kW, with no change to the licensed daytime 50 kW ND operation. IHM must reduce the nighttime power further or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. IHM must submit an e-mail to my attention to note the date an FCC Form 302 application was filed to update all operating parameters,

¹ WCKY(AM) is licensed for operation on 1530 kHz with 50 kW (ND day and DA night).

or the date the station was able to resume licensed operations per BZ-20100525AFJ with negligible changes to all parameters.

This authority expires on **February 12, 2022.**

Sincerely,
