Re: IHM Licenses, Inc. (IHM)
WMT(AM), Cedar Rapids, IA
Facility Identification Number: 73593
Special Temporary Authority (STA)
BESTA-20210805AAB

Dear Mr. Langham:

This is in reference to the request filed on August 5, 2021. IHM has requested a final extension of the STA granted on August 12, 2020, to change back to nighttime DA operation with parameters at variance based upon the recently filed FCC Form 302 application.¹ In support of the request, CLI stated that it would like to operate with the new moment method derived operating parameters specified in its recently filed application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and IHM may continue to operate with nighttime DA parameters and reduced power if needed based upon the

¹ WMT(AM) is licensed for operation on 600 kHz with 5 kW ND day and DA night.

information provided in the application, with no change to the daytime licensed operation. IHM must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 18, 2022**.

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.
