Re: Inspiration Media, Inc. (IMI)
KGNW(AM), Burien-Seattle, WA
Fac. ID No: 28819
Special Temporary Authority (STA)
BESTA-20210831AAE

Dear Mr. Henderson:

This is in reference to the request filed on August 31, 2021. IMI requests a final extension of the STA granted on January 12, 2021, and last modified on March 5, 2021, to continue operating with parameters at variance based upon the proof submitted in BMML-20210322AAP.¹ In support of the request, we noted that IMI will require additional time to operate with temporary parameters until further action has been taken on the pending application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and IMI may continue to operate with parameters at variance (and reduced power if needed) based upon the proof submitted in BMML-20210322AAP. IMI must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

¹ KGNW(AM) is licensed for DA operation on 820 kHz with 50 kW (day) and 5 kW (night) using different patterns.

This authority expires on **March 2, 2022.**

Sincerely,
