Re: Tyler Media, LLC (TM)
KOKC (AM), Oklahoma City, OK
Facility Identification Number: 73981
Special Temporary Authority (STA)
BESTA-20211103AAC

Dear Mr. Tyler:

This is in reference to the request filed on November 3, 2021. TM requests a further extension of the STA granted on January 17, 2012, to continue operating using the shorter tower constructed in 2015 (due to destruction of the original antenna system) to allow time to file the required FCC Form 301 application to propose a new permanent facility.¹ In support of the request, TM stated that it plans to move forward with the project in the upcoming months.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and TM may continue to operate with the following facilities:

Geographic coordinates	35° 20' 01" N, 97° 30' 18" W (NAD 1927)
Frequency	1520 kHz
Hours of operation	Unlimited

¹ KOKC is licensed for 50 kW operation on 1520 kHz with a daytime ND antenna, and a nighttime DA antenna.

Operating power	10 kW (Unlimited)
Antenna type	new shorter tower constructed in 2015 for this STA
Overall tower height	59 m
Radiator height.	57.9 m
Antenna efficiency	316 mV/m/km/KW

TM must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR 1.1310. TM must submit an e-mail to my attention to note the date the application was filed.

This authority expires on **May 18, 2022**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
