Re: Radio License Holding CBC, LLC (RLH)
WEEX(AM), Easton, PA
Fac. ID No.: 8596
Special Temporary Authority (STA)
BESTA-20211123AAL

Dear Mr. Denning:

This is in reference to the request filed on November 23, 2021. RLH requests an extension of the STA granted on May 28, 2021, to continue temporary ND operation to allow time to file the required FCC Form 302 application to cover BP-20200225ACU.¹ In support of the request, RLH stated that additional time will be needed to file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and RLH may continue to operate ND daytime with a maximum power level of 0.32 kW using the shorter licensed north tower #1, with no change to the ND licensed nighttime operation using the taller licensed south tower #2 (ASRN 1031820) and a power level of 1 kW. RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. RLH must

¹ WEEX(AM) is licensed for operation on 1230 kHz with 0.84 kW day (DA), and 1 kW night (ND), and BP-20200225ACU authorizes operation at 1 kW day and night using the shorter existing tower.

submit an e-mail to my attention to note the date the application was filed to verify no further STA operation is needed.

This authority expires on **June 5, 2022.**

Sincerely,
